PUBLICATION REVIEW PROPOSAL

Thank you for your interest in reviewing a publication for JAFSCD. JAFSCD is interested in publishing reviews of books, reports, training materials, and other literature related to food systems development work. These publications should be of interest to an international audience and relate specifically to one or more components of local or regional food systems (such as sustainable production, marketing and value-chains, or food consumption), as long they have a community development element.

To propose a publication for review or to be contacted when we are searching for a reviewer, please provide the information below. We can have a review copy sent to you by the publisher if you do not already have it in hand.

Send this completed Acrobat form (or print and scan if needed) to Editor-in-Chief Duncan Hilchey at duncan@LysonCenter.org.
